

# Critic-markdown Example

## Critic Markdown

This filter adds processing of critic markdown syntax. Below are examples of usage.

### Highlighting

```
{==Highlighted text==} Highlighted text
```

```
{== Highlighted text with a comment==}{>>First comment<<} Highlighted text with a comment
```

```
{>>Single comment <<}
```

### Addition

```
{++This is added text++} This is added text
```

```
{++This is added text with some removed++}{-- removed--} This is added text with some removed
```

### Deletion

```
{--This is removed text--}
```

```
{--This is removed text with some added--}{++added ++} added
```

### Replacement

```
{~~This is original text~> this is the replacement~~} this is the replacement
```
